Digital Sign Guidelines

Signage should promote special city and non-profit programs, events, cultural events, and services. Messages should target the Lander community and visitors at large.

Messages will be posted for up to two weeks prior to the event. The City of Lander will create the digital sign with a simple background and easy to read text. Logos may be considered if visually appealing.

We broadcast on a loop that runs from 6 AM to 10 PM, seven days a week. Signs are located at the Lander Chamber of Commerce and Museum of the American West. Signage must be approved by City of Lander staff and they reserve the right to edit any and all signs to fit into the parameters of the display. Full payment must be received before displays will appear.

Messages Not Allowed

Political, religious, or advertisements from special interest groups

Discriminatory or offensive messages

Personal messages and events (birthday, anniversary, etc.)

Business advertisements

Classified advertisements

Additional Notes

During approval, we may modify or condense the text to fit the space of the sign.
